## QI Vertical Track Assembly

### Models: 9100/9600/9900

### Installation Instructions Insert

MT. HOPE / PENSACOLA PRODUCTION

Use this insert in conjunction with the installation manual provided with the door. Replace the corresponding steps in this insert with the steps in the installation manual. New jamb brackets for all door heights and for 8'0" 5 section doors, flagangle has changed.

#### 8'0" 5 SECTION ONLY

### ① Attaching Adjustable Flagangle to Quick Install Vertical Track

Hand tighten the flagangle to the vertical track using a stud plate and (2) 1/4 - 20 flange hex nuts (see **Fig. 1**). Secure the flange nuts after flagangle spacing is complete (Steps 10A - 10B)

FIG. 1

#### 8'0" 5 SECTION ONLY

### ⑪ Attaching Adjustable Flagangle to Quick Install Horizontal Track

To install horizontal track, place the curved end over the top roller. Align the bottom of the horizontal track with the top of vertical track. Secure the track to the flagangle with (1) stud plate and (2) flange hex nuts (see **Fig. 2**).

Continue **Step 11** in the main door installation manual provided with the door.

FIG. 2

### ③ Installing the Q.I. Jamb Brackets

Measure the length of the vertical tracks. Using the jamb bracket schedule (located on reverse side), determine the placement of the jamb brackets for your door height and track type. Install the jamb brackets into the appropriate hole at their respective locations (see **Fig. 3** on reverse side).

**BMW QUICK INSTALL TRACK - STANDARD LIFT**

DOOR HEIGHT	1ST SET		2ND SET		3RD SET	
	JAMB BRACKET	POSITION	JAMB BRACKET	POSITION	JAMB BRACKET	POSITION
